

ResQ Marine Worksafe 150N Lifejacket

The Worksafe 150N lifejacket provides a versatile, low cost lifejacket for the professional at work in or above a marine environment.

Easy to don and comfortable to wear this slim, unobtrusive lifejacket can be fitted with a fire proof cover enabling it to be worn while welding or burning.

The patented interlocking lobes create an effective wave barrier preventing water from being channeled into the mouth, the tailored neck gives vital support to the head and neck - even to an unconscious subject.

Combining the best features of the larger Worksafe 275 N with the need for a practical everyday lifejacket, the Worksafe complies with both CEN and the European PPE "Safety in the workplace" regulations Standard features include high visibility neon yellow fabric and patented interlocking lobe design.

Specification:

- Single chamber fully automatic or manual gas inflation system
- Retro-reflective tape
- Whistle
- Lifting loop

Worksafe complies with CE 150 (EN 396) and European PPE regulations.

Features:

- Patented interlocking lobe design
- Wide range of options and spares
- High visibility neon Yellow fabric
- Comfortable and unrestrictive to wear when working
