OCEAN SAFETY INSULATED IMMERSION SUIT

OCEAN SAFETY®

Ocean Safety,
Saxon Wharf,
Lower York Street,
Southampton,
SO14 5QF, UK.

www.oceansafety.com

A SOLAS and MED approved emergency abandonment suit, designed as an easy to don, single use garment to ensure personnel can evacuate stricken vessels in an emergency situation and aid survival until rescue.

The suit offers excellent thermal protection to the wearer via its 5mm fire retardant neoprene, which is further glued and blind stitched to ensure waterproof integrity.

It also benefits from an integral lifting strop with built in buddy line, whilst the SOLAS approved reflective tape, located on the hood and arms aids visibility, which in turn aids recovery. Reinforced soles on the feet, offer increased durability and protection.

Each suit is supplied in its own carry bag, donning instructions are clearly displayed on both the bag and the suit.

KEY FEATURES

- SOLAS approved
- 150cm² retro-reflective tape on the hood
